Give us a call to fine-tune your checklist and to assist with preparing you for a great trip. Remember: everything you pack, you need to carry! You should also take into consideration the time of year and weather. A lightweight tarp is one of the first things I ensure I have packaged and can make some wet/cold conditions manageable/enjoyable. Spending extra time on your menu/food packing can go a long way and will be much appreciated when in the interior.
